Managing Director  
Lorclon Limited  
Lorclon House  
139b The Broadway,  
West Ealing, London  
W13 9BE

**Date of Issue :**  
**28/02/2013**

The company is committed to protecting the environment by complying with all relevant UK legislation, meeting national standards relating to the environment and in accordance with best working practices currently in use by the industry. This is an ongoing commitment which requires working procedures to be frequently reviewed and adapted to reflect the continual changes that are taking place in the industry to ensure the company is at the forefront of the changes with regards to environmental protection.

The company uses the word environment to cover the natural environment and ecosystems as well as the built environment and the effect the company's operations can have on people's lives and heritage. As a civil engineering company working on infrastructure schemes, this pledge to environmental protection is further extended to protect the health & safety of employees and the public in general so that the company's impact on people's environment is beneficial and not harmful.

To achieve these objectives the company will:-

- Lorclon Ltd are fully committed to preventing pollution throughout all aspects of the companies work.
- Fully comply with current legislation, our own company accredited ISO 14001 Management System and/or clients operating procedures to ensure the highest standards are obtained. The company is not satisfied with merely satisfying minimum legal requirements but will be pro active with its clients in setting and achieving higher standards when practicable.
- Ensure any subcontractors working under the company's control also follow similar standards and attitudes.
- Ensure company staff are aware of environmental issues and the procedures they must follow. This awareness training will be encouraged at all levels and in subcontract companies as well as our own.
- Minimising the impact of the company's activities by adopting best practices that are available at that time. This maxim will be applied to all aspects of the company's activities including design, site operations, plant & transport selection and use, energy efficiency, re-use and recycling options, and waste minimisation.

With regards to fixed locations operations, the company will carry out an environmental impact assessment of the premises and activities and produce an action plan covering what changes can be made to reduce the effect.

With regards to site activities, environmental issues will be considered along with quality and health & safety issues at the planning stage and the environment impact assessment will be incorporated into the project Health, Safety & Environmental plan agreed with the client before work commences.

Lorclon Ltd  
Environment Policy  
Date of Issue: - Feb 2011

The environmental performance of the company is to be monitored by Mr N. Daly and will be reviewed annually by the Safety & Assurance Manager. Objectives will be set and the monitoring and annual review is to ensure the company is achieving these objectives. This review will also take into account changes in legislation, advances in technological knowledge and changes in industrial practice, and if required, the company's objectives will be re-set taking into account these changes.

The company is aware of BS7750 and ISO 14001 and will adopt the philosophy detailed in these standards in its operations.
